- › High-Quality Certification: CE, ROHS

STANDARD MODEL

SOLAR MODEL

Control extensive entry points with the Parklio™ Chain Barrier, designed for durability and easy access sharing from everywhere.

# HOW DOES IT WORK?

AUTOMATIC CHAIN BARRIER

## 01 PRECONFIGURED FOR IMMEDIATE USE

Enjoy the simplicity of our Plug & Play automatic chain barrier, preconfigured for your convenience and suitable for various settings.

## 02 CONTROL VERSATILITY

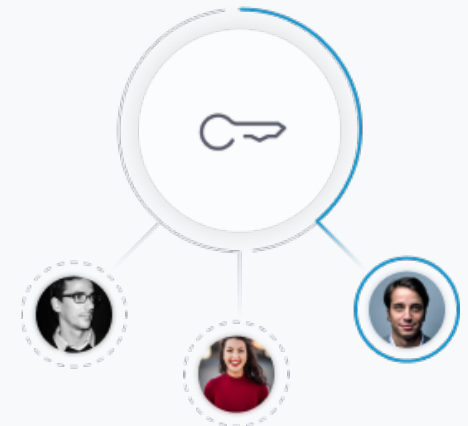

Operate the automated chain barrier using diverse control options such as the free Parklio Connect app, a remote controller, push button, timer, or the Parklio Parking Management System.

## 03 PHOTOCELL OBSTACLE DETECTION

Eliminate vehicle damage, enhance safety, and reduce the risks of accidents in your parking lot thanks to the chain barrier's integrated photocells that detect obstacles, ensuring the barrier moves only when it's safe.

## 04 TIME INTERVAL DIGITAL KEYS

Use digital keys with customizable time intervals to manage visitor access, setting specific access periods to maintain a controlled entry for approved vehicles.

# HOW DOES IT WORK?

AUTOMATIC CHAIN BARRIER

## 05

### SOLAR-POWERED FOR OFF-GRID USE

Implement a solar-powered model for sustainable and reliable operation independently of the power grid.

## 06

### PERFECTLY CUSTOMIZABLE

Choose from nine different sizes of Parklio chain barrier, ranging from 4 to 20 meters, to fit the unique dimensions of your parking lot entrance.

## 07

### CONTINUOUS OPERATION GUARANTEED

Rely on our chain barrier's battery backup to maintain operation continuously, even during power outages.

## 08

### SAFETY JOINT FOR ENHANCED DURABILITY

Trust in the durability of our chain barrier, equipped with a safety joint that breaks under excessive force to protect the rest of the structure. It is easily replaceable, reducing downtime and maintenance costs.

# WHERE CAN I USE PARKLIO™ CHAIN?

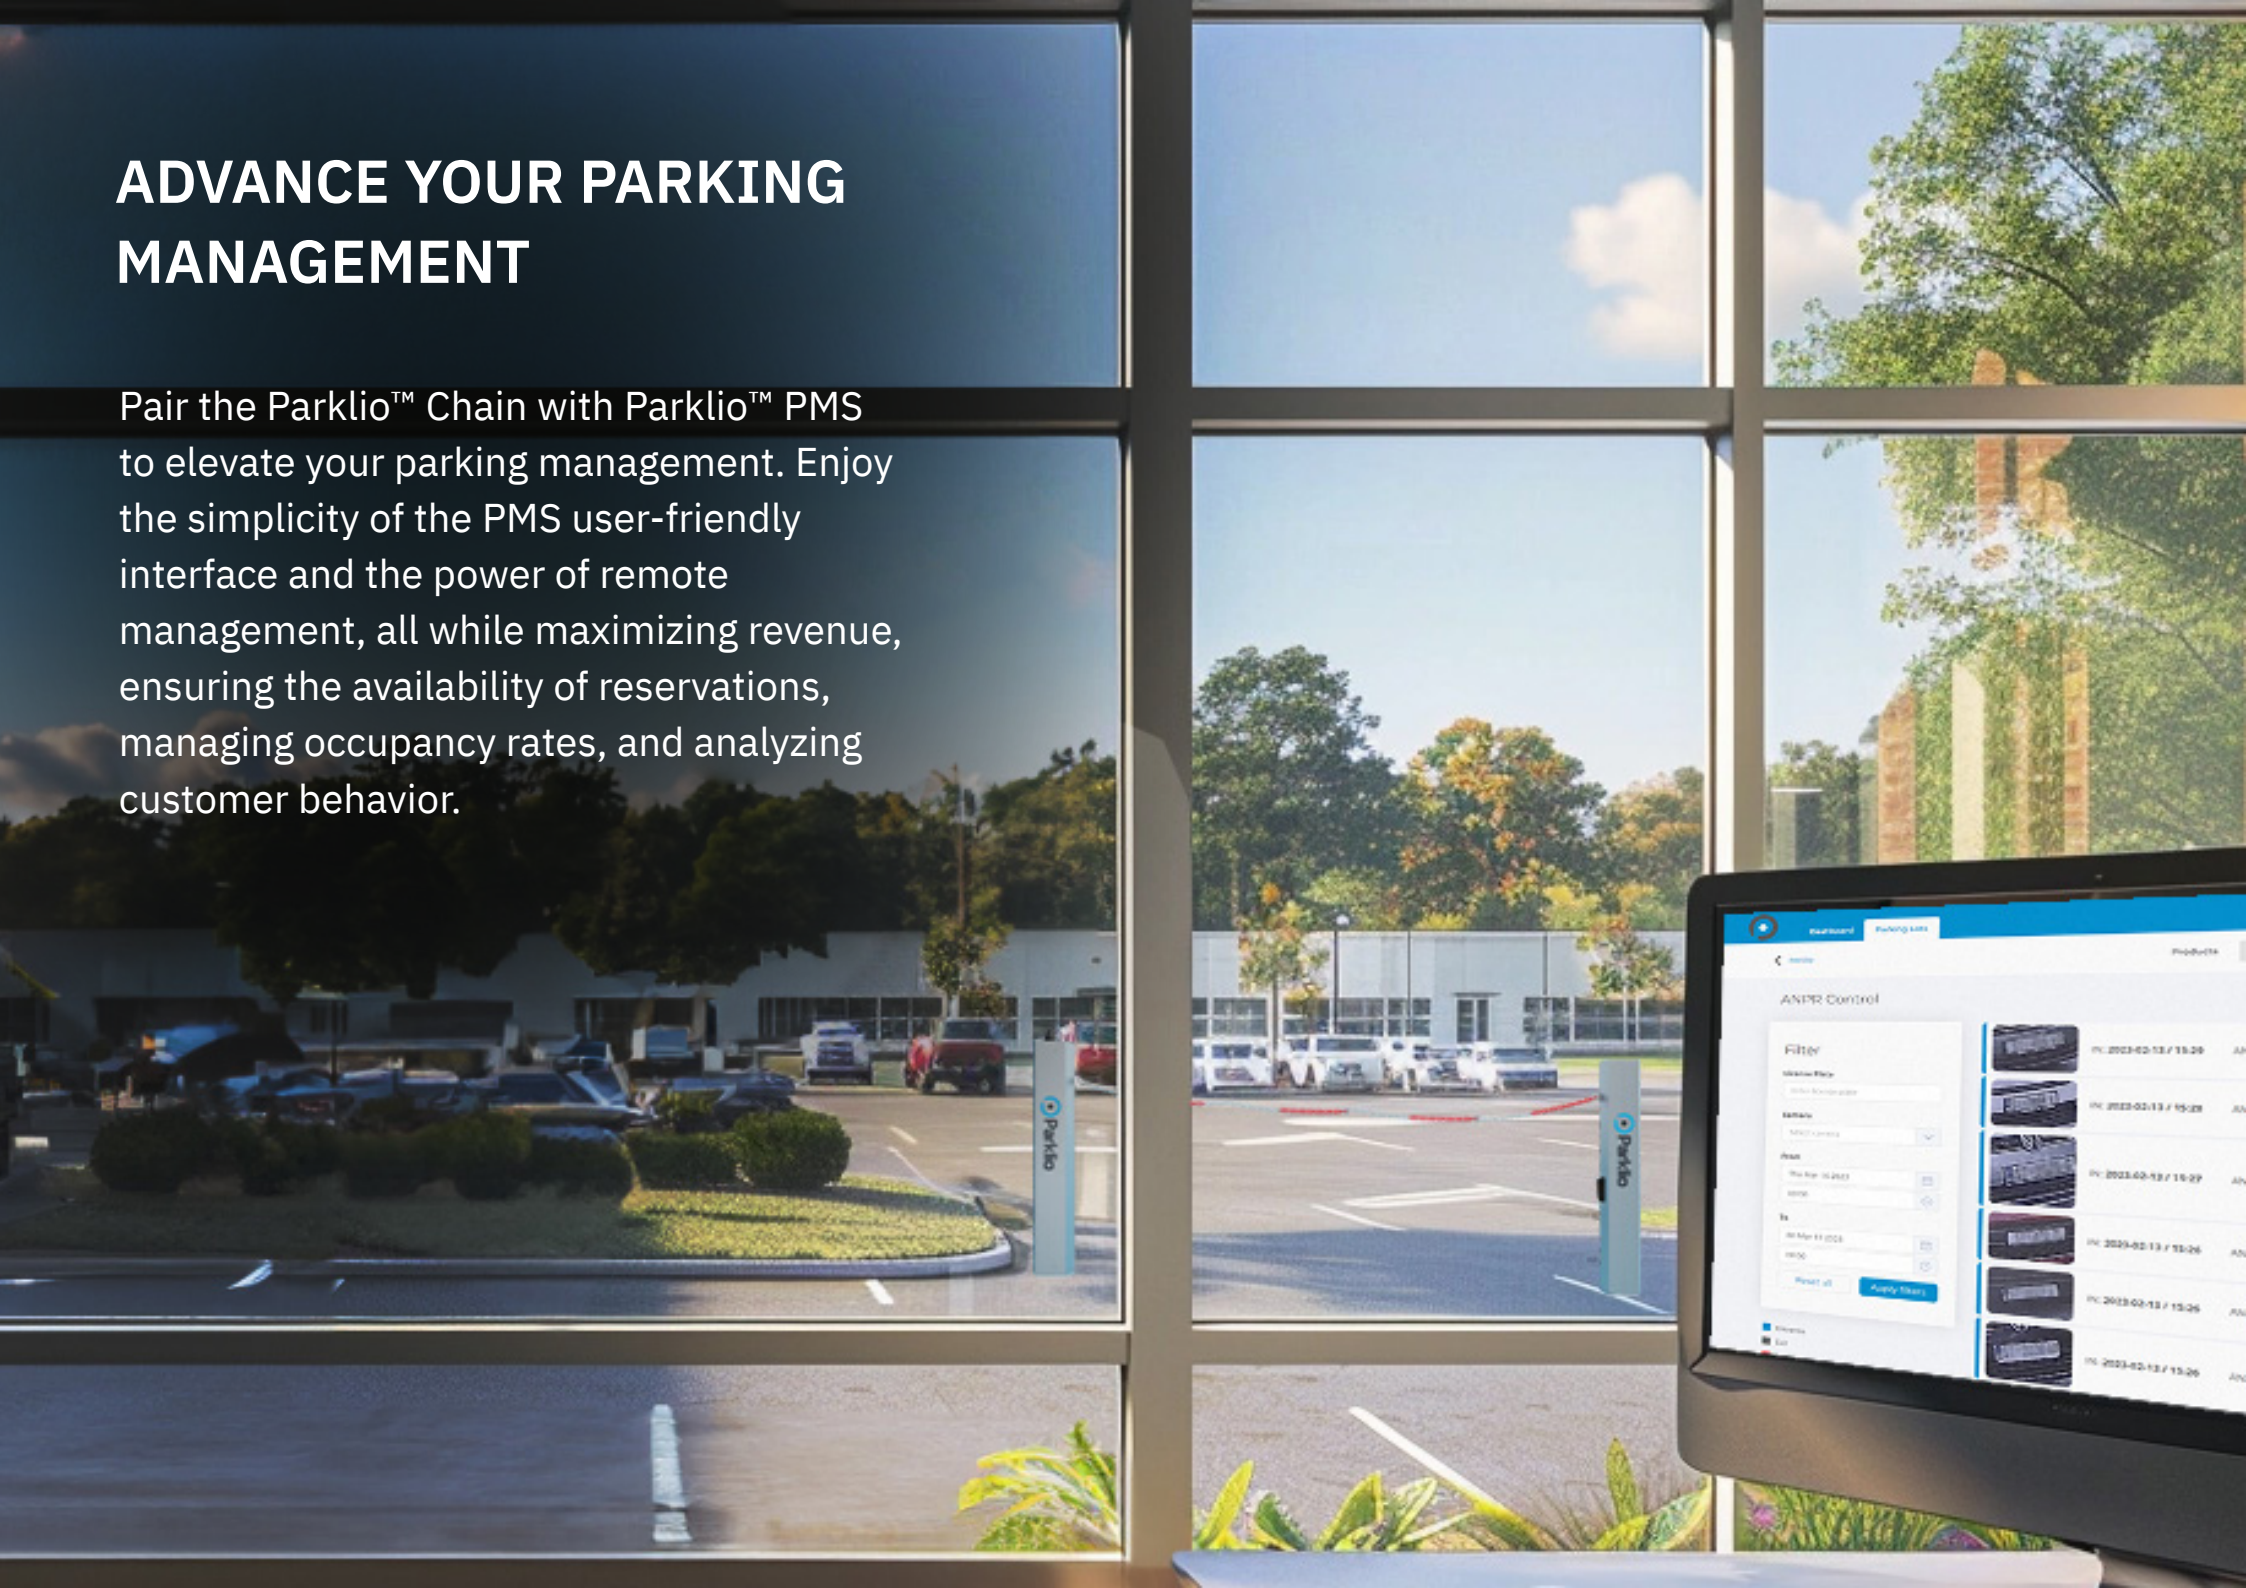

Parklio™ Chain is the perfect solution for a range of applications, including:

- › managing broad entry points of private and commercial parking lots
- › enhancing security at large residential complexes and gated communities
- › resolving parking organization challenges in resort properties or hospitality venues
- › providing reliable protection for industrial sites with large entryways
- › facilitating smooth access for authorized vehicles at construction sites or logistical centers

# ADVANCE YOUR PARKING MANAGEMENT

Pair the Parklio™ Chain with Parklio™ PMS to elevate your parking management. Enjoy the simplicity of the PMS user-friendly interface and the power of remote management, all while maximizing revenue, ensuring the availability of reservations, managing occupancy rates, and analyzing customer behavior.

# Count on Our Professional Knowledge

Whether you need specific quantities or branded customizations, we've got you covered. Let us know your requirements, and we'll ensure your parking chains are tailored exactly to your needs.
